Collaborative governance
- Collaborative governance development across multiple sectors and scales that allows all voices to be heard
- Co-design fit for purpose services and programs with citizens and develop communities of practice that have real impact on outcomes
- Design and implementation for learning - develop opportunities for integration of knowledge and practice, social and institutional memory & learning and continuous innovation (suitable for all themes)

Innovation & entrepreneurship
- Expand opportunities and facilitate action - develop capacities for human potential (of all citizens), leadership, creativity, innovation & entrepreneurship, diversity
- Align knowledge centres (e.g. research and education institutions), and with existing private & public sectors to encourage innovation and creativity
- Develop and improve branding of "magnet" infrastructure - improve utilisation of current assets and develop new complimentary and innovative opportunities

Connectivity & relationships
- Develop and retain human and social capital, including effective use of talent and the creation of social responsibility
- Regional and global Canberra - encourage viable local and regional communities across multiple scales
- Connectivity for all - digital connectedness, relationships and institutional structures develop
- Social equity and inclusion - focusing on an inclusive society for all citizens

Environmental integrity
- Develop stewardship practice for biodiversity and ecosystem health in the context of climate and global change
- Develop sustainable and smart infrastructure for future generations (e.g. transport, retro-fitting for new technologies)
- Develop Canberra as a national leader in renewable energy, waste management, water sensitive urban design and low impact, resource efficient development
- Ensure environmental integrity is maintained with social and economic systems

Futurity
- Plan and build capacity for change - develop capabilities for flexibility, long-term thinking and uncertainty awareness
- Concern for intergenerational equity
- Strengthen local and regional leadership across all sectors and levels
