The Institute for Governance and Policy Analysis at the University of Canberra (IGPA) was established in 2014 to harness the research strengths of the ANZSOG Institute for Governance (ANZSIG) and the National Centre for Social and Economic Modelling (NATSEM). The Institute aims to create and sustain a world class research institution for the study and practice of governance and public policy. With this aim in mind, the University has invested in the appointment of 6 new senior professors, all recruited from Universities ranked in the world top 150 in the world, to join four existing ones. This Professorial Public Lecture series will showcase that talent and provide thought-provoking analysis of a number of critical governance problems facing Australia and the world. Delivered by acclaimed academics and thought leaders, the Public Lecture Series is open to the public, alumni and staff working at the University.

### Schedule: Semester 1

**Thursday 26 February 2015**
