The Story of HK 2011

“The Hot Knowledge Conference” aims to develop doctoral candidate’s research through networking opportunities with other researchers in the areas of study offered at the Faculty of B&G and related areas in law. This year’s theme is “Communicate and Work It Up”.

It provides the students with opportunities to gain a better understanding not only of their own research’s specialisation but also other candidates’ research work in other fields of study. The conference aspires the candidate of the chances for practical application.

We will continue the Faculty of B&G tradition of having an interdisciplinary conference that focuses on all B&G disciplines with four types of presentation:

• Paper Presentation
• Working in Progress and Final Seminar
• Short Research Paper/Speed Geeking
• Poster Presentation
